Recommended Fit – DJI Spark

DJI Spark Fits in Lowepro

We've identified 3 casesana specific best fit for the the new DJI Spark photo drone:

- **ViewPoint CS 60** – the most compact fit, carries Spark, extra battery and props.
- **ViewPoint CS 80** - provides a secure, protected fit for the drone, with additional space for batteries, charging device and extra props.
- **Dashpoint AVC 80 II** - Highest level of protection using FormShell technology
- **ViewPoint BP 250** – Ideally suited to carrying multiple gear sets internally using a Gear Box, which can be stored internally or mounted to the exterior.

The these models are currently available to order or on the Lowepro website at www.Lowepro.com.

All images are available in high resolution.

Dashpoint AVC 80 II

ViewPoint CS 60

ViewPoint CS 80

ViewPoint BP 250

ViewPoint CS 60

Attachment points on front and back easily mount case on exterior of backpack.

Drone fills space with divided room for extra battery
