

Type-C Hub with USB-C PD, USB-A, HDMI, SD card reader for the new MacBook M1

DESCRIPTION

Discreet and elegant, the new USB-C hub from XtremeMac has an innovative design, the first made specifically to easily fix it at the bottom right of your iMac, thanks to a smart fixing system.

Once fixed, the Type-C Hub works by simply plugging it to one of the USB-C port at the back of the iMac, and add 6 new connectors to your device.

HDMI output, supports 4K resolution, compatible with most monitors, projectors and HD TVs on the market.

The 2 USB-A 3.0 provide a high-speed transmission of data and allows you to plug any USB-A stick or additional USB-A device.

Supports SD and Micro SD memory cards as well as 3.5mm audio jack for sound input and output.

The USB-C PD port allows you to charge your device while you are already using the port.

FEATURES

- Add 6 ports to your newest iPad Pro and MacBook.
- Smart fixing system, perfect match to your new MacBook.
- 2 * USB-A 3.0 for fast charge & data transfer.
- USB-C PD – charge your device through the hub.
