SUREFIRE

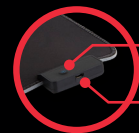

## LIGHT UP YOUR BATTLEFIELD

The SureFire Silent Flight RGB has RGB LED illuminated edges which can be perfectly tuned for your gaming set up.

## LIGHTING, PRECISION AND CONTROL

The multicolour lighting can be controlled without installing software – just select one of the 14 modes available and get into the action! The Silent Flight Mouse Pad will even memorize the brightness and mode of RGB light for your next time use.

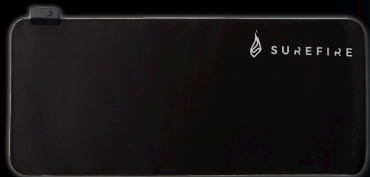

LED Switch mode

Micro USB

## OPTIMISED FOR YOUR MOUSE

Delivering ultimate precision and complete in-game control, the Silent Flight Gaming Mouse Pad is optimised for all sensitivity settings for both optical and laser mice sensors.

## ROCK SOLID GRIP

The pad's micro-textured surface provides the ideal balance of control and speed and its anti-slip rubberized base guarantees a rock-solid grip during those most intense action-packed gaming sessions.

## GENERAL

|                       | Size   | Dimension (LxWxH) | Weight              |
