

RF-S 14-30mm F4-6.3 IS STM PZ

ZOOM WITH POWER AT YOUR FINGERTIPS

The RF-S 14-30mm F4-6.3 IS STM PZ is designed for content creators who want smooth, professional-looking videos. Part of Canon's APS-C standard zoom lens lineup, it's the only lens with an internal power zoom – making it ideal for video creation.

14-30mm focal length

Power Zoom

Combined control and focus ring

STM autofocus

Optical image stabilisation

UD element

Easy handheld shooting

Filming solo is easy with a 14mm ultra-wide lens, especially when it's paired with Optical Image Stabilisation¹ for shake-free footage – even while you're walking. Get closer with a 15cm minimum focus distance, perfect for showing crafts, collectibles, and intricate details. Canon's optical expertise ensures exceptional sharpness, with UD and aspheric lenses and Super Spectra coating.

Flexible and quiet

Seamlessly switch from ultra-wide to close-up shots with a versatile 14-30mm zoom range. The quiet STM autofocus delivers smooth, near-silent tracking – ideal for vlogging – while the switch-free design prevents accidental setting changes. Plus, with 0.38x magnification at 30mm, you can capture fine details with ease.

Smooth zoom control

Elevate your videos with smooth, seamless focal length shifts, thanks to an internal power zoom. With two-step variable speeds and 15 adjustable levels, the power zoom delivers precise, polished transitions for high-quality footage.

Take it on the move

The RF-S 14-30mm F4-6.3 IS STM PZ is lightweight and compact – just 181g with a non-extending design. This means it's stable on tripods and gimbals, making it ideal for travel, livestreaming, and vlogging on the move. You can also add filters for creative lighting control, or an optional hood for extra protection from lens flare.

Total creative control

Adjust your settings quickly and intuitively using the combined control and focus ring. Use it to manually control your focus or make quick adjustments to exposure, ISO, picture style, and more. Control the zoom remotely via your smartphone or with a Canon remote for full freedom when livestreaming or working alone.

RF-S 14-30mm F4-6.3 IS STM PZ

RF-S 18-45mm

RF-S 18-150mm

¹Tested under CIPA standards / CIPA-2024 standard (in the yaw/pitch directions at maximum focal length, with a specific camera)

OPTICAL FEATURES/SPECIFICATIONS	
Image size	APS-C
35mm film equivalent focal length (mm)	22.4-48mm
Angle of view (horzntl, vertl, diagonl)	78°05' - 41°25' 56°40' - 28°15' 88°30' - 48°50'
Lens construction (elements/groups)	10/9
Special optics	2x Pmo aspherical 1x UD
Special features	Internal Power Zoom
No. of diaphragm blades	7
Minimum aperture	22-36
Closest focusing distance (m)	0.15
Maximum magnification (x)	0.38
Control Ring	Combined / focus
Image stabilizer OIS ¹	5
Image stabilizer IBIS x OIS ¹	Centre: 7.5 Corner: 5.5
AF actuator	STM
Coatings	Super Spectra
Fluorine	No
PHYSICAL SPECIFICATIONS	
Dust/moisture resistance	No
Filter diameter (mm)	58
Max. diameter x length (mm) ²	69.6 x 62
Weight (g)	181
ACCESSORIES	
Lens cap	E-58II
Lens hood	EW-63C
Lens case/pouch	LP1014
Rear cap	Lens Dust Cap RF
Extender Compatibility	Not compatible
